30th ANNIVERSARY OF
NIXON'S CHECKERS SPEECH

San Francisco Punks, "UNITE"!!

A or would you rather Fight, or Hang
N out all night, spraying Anarchy
A on the walls of our club. Do you
R Even know the meaning of the
C words you write around town? Do
H you know what you are in Society's
Y rule? Anarchist, Socialist, activist,
\$ pacifist, working class, middle class,
F democrat, Republicans...

Anarchy is: the rejection of all
government or state rule, to have
personal choice in all matters. It's
against violence. Instead it seeks to
solve problems by developing mutual
understanding between people rather
than hostility. Violence only wor-
sens the disagreements. For
example; we make 100 bombs, they
make 200. Then we have to make
more bombs. What do we need
millions of bombs. One Kills, a
million totally destroys all.

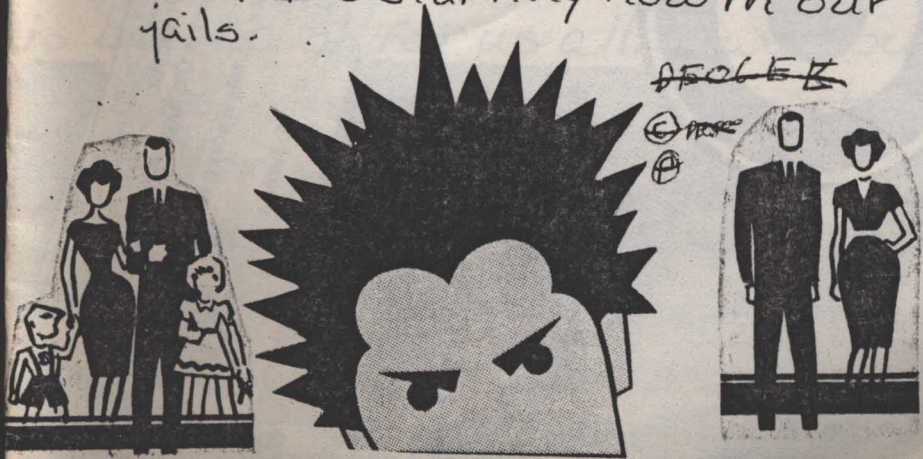

NO-WAR ✕ NO-VIOLENCE

When I was a youngster - When I was a school boy
I did what I ~~was~~ ^{was} fucking told - I didn't steal from mommey, I didn't steal from daddy, but I was always thier prime suspect. I didn't have long Hair and I don't want to work like they do. I hated every thing they stood for

I hate thier life - And all it stands for
They say they work - for something worth more
But they sit at home - watching the T.V. eye
hever realizing that it's - a goverment spy

Middle class, Rich class, they gotta go,
~~go~~ to work
middle class Rich class, The government
picks you out.

Middle class, Rich class, I don't like
your smell. All you want do is send
Americas' youth to jail. Well,
we're not going to take - no not
anymore. United together we will
rebel. It's starting now in our
jails.

Do you know the difference between reality and Fantasy? **No You Don't,** coz you are still being influenced by Starsky and Hutch, You're still buying The Sex Pistols, You're still trying to be top dog. You say you're Anarchists when you're begging the system for help and standing on the dole lines. You want to be independent, you want to be Happy, but you live a life of Fantasy. You can be Free, the real you. **you Can Be you.**

Dear Mr. President:

Wake me up when it's over.

I hope it's not too late when you do.

— Lauren Bacall

Dear Mr. President:
Television is the biggest drug problem in
America.
You are on television a lot. I like watching
you.
— A Junkie

We are born Free,
But almost immediately we are sub-
ject to conditioning in preparation
for a life of slavery within the
system. We are moulded by our
parents, teachers, bosses, ect, to con-
form to what they want from us,
rather than to our own natural
and unique desires.

Anarchist believe that those natural
desires for peaceful and cooperative
lives are denied us, because the do
not serve the riguirements of the
ruling class.

Life should and could be a wonder-
ful and exciting experience. Despite
what the politicians say, the world
is big enough for us all. If we could
only learn to share it, to respect
each other with-in it.

Make your own decissions. Stand
against violence, it's not the only
way to achieve improvements.

MURDER

A Dying Tradition

WITH SAN FRANCISCO'S
MOST NOTORIOUS
BAND

AMERICA'S Favorite Sport,

MURDER

Murder is the Best Band I've seen in the S.F. scene for quite a long time. there Not just another PUNK band, they have a very unique sound with strong vocals & great lyrics. with BOB CILIC from the lead on guitar, he throws in some of the coolest licks I've ever heard. & lead on the bass, it cause the whole ~~club~~ ^{explode} with activity & Energy. there

New Drummer carl ~~has a nice~~ ^{has a nice} drum kit set up with two ~~bass~~ ^{bass} drums. And other special sounds like a cow Bell. that adds to there unique sound. carl is one hot drummer but ~~when~~ ^{when} you get to NINA crawford (old singer from the VKtms) you get some Real power out of the Band. they all blend in real good together and on stage they all show

~~there~~ ^{there} there musical ability and prove there some of the Best musicians around. ^{town} given the chance to expand there abilities I think - they could go far. NYNA'S song lyrics are just out of this world, titles like, Chain saw love, & the Best one is the Butcher, specially with a little echo thrown in here & there. my Favara songs have got to be

sperm chucker, tenderloin, murder, and
of course the Butcher. If you haven't
seen murder yet you had best look
for coming dates.

Our generation is the best mass movement in history, experimenting with anything in our search for Love and peace, Knowledge, Kicks, religion, life, truth, even if it leads us to our death. At least we're all trying, together. Our temple is sound, we fight our battles with music, drums like thunder, cymbals like lightning, banks of electronic equipment like nuclear missiles of sound. We have guitars instead of tommy guns.
